REPORT OF THE MANAGEMENT

The management of Sai Gon VRG Investment Corporation ("the Company") is pleased to present its report and the interim consolidated financial statements of the Company and its subsidiaries ("the Group") for the six-month period ended 30 June 2026.

THE MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The management is responsible for the interim consolidated financial statements of each financial period which give a true and fair view of the interim consolidated financial position of the Group and of the interim consolidated results of its operations and its interim consolidated cash flows for the period. In preparing those interim consolidated financial statements, the management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the interim consolidated financial statements; and
- prepare the interim consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue its business.

The management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the interim consolidated financial position of the Group and ensuring that the accounting records comply with the applied accounting system. It is also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The management confirmed that it has complied with the above requirements in preparing the accompanying interim consolidated financial statements.

STATEMENT BY MANAGEMENT

The management does hereby state that, in its opinion, the accompanying interim consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 30 June 2026 and of the interim consolidated results of its operations and its interim consolidated cash flows for the six-month period ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the interim consolidated financial statements.

REPORT ON REVIEW OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To: The Shareholders of Sai Gon VRG Investment Corporation

We have reviewed the accompanying interim consolidated financial statements of Sai Gon VRG Investment Corporation ("the Company") and its subsidiaries (collectively referred to as "the Group"), as prepared on 28 August 2026 and set out on pages 6 to 63 which comprise the interim consolidated statement of financial position as at 30 June 2026, and the interim consolidated income statement and the interim consolidated cash flow statement for the six-month period then ended and the notes thereto.

The Management's responsibility

The Company's management is responsible for the preparation and presentation of the interim consolidated financial statements that give a true and fair view in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the interim consolidated financial statements, and for such internal control as management determines is necessary to enable the preparation and presentation of the interim consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express a conclusion on the interim consolidated financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

A member firm of Ernst & Young Global Limited

Shape the future
with confidence

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements do not give a true and fair view, in all material respects, of the interim consolidated financial position of the Group as at 30 June 2026, and of the interim consolidated results of its operations and its interim consolidated cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the interim consolidated financial statements.

2. BASIS OF PREPARATION

2.1 *Accounting standards and system*

The interim consolidated financial statements of the Company and its subsidiaries ("the Group") expressed in Vietnam dong ("VND"), are prepared in compliance with Vietnamese Enterprise Accounting System and Vietnamese Accounting Standard No.27 – Interim Financial Reporting and other Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);
- Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);
- Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);
- Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and
- Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

Accordingly, the accompanying interim consolidated financial statements, including their use are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the interim consolidated financial position and the interim consolidated results of operations and the interim consolidated cash flows of the Group in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

2.2 *Applied accounting documentation system*

The Group's applied accounting documentation system is the General Journal system.

2.3 *Reporting period*

The Group's fiscal year applicable for the preparation of its interim consolidated financial statements starts on 1 January and ends on 31 December.

These interim consolidated financial statements are prepared for the six-month period ended 30 June 2026.

2.4 *Accounting currency*

The interim consolidated financial statements are prepared in VND which is also the Group's accounting currency.

2.5 *Basis of consolidation*

The interim consolidated financial statements comprise the interim financial statements of the Company and its subsidiaries for the six-month period ended 30 June 2026.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continued to be consolidated until the date that such control ceases.

The interim financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

All intra-group interim balances, income and expenses and unrealised gains or losses resulting from intra-group transactions are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the interim consolidated income statement and within equity in the interim consolidated statement of financial position.

Impact of change in the ownership interest of a subsidiary, without a loss of control, is recorded to the account of undistributed earnings or accumulated losses.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 *Change in accounting policies and disclosures*

The accounting policies adopted by the Group in preparation of the interim consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025 and the interim consolidated financial statements for the six-month period ended 30 June 2025 except for the change(s) in the accounting policies arising from the initial adoption of Circular No. 99/2025/TT-BTC guiding the Enterprise Accounting System ("Circular 99") and Circular No. 43/2026/TT-BTC amending, supplementing Circular No. 202/2014/TT-BTC providing guidance on preparation and presentation of consolidated financial statements ("Circular 43").

3.1.1 *Changes in accounting policies due to the adoption of new accounting regulations Circular 99*

On 27 October 2025, the Ministry of Finance issued Circular 99, replacing Circular No. 200/2014/TT-BTC providing guidance on the enterprise accounting regime issued by the Ministry of Finance on 22 December 2014 and several other related regulations. Circular 99 is effective from 1 January 2026 and is applicable to fiscal years beginning on or after 1 January 2026.

The Group has applied changes in accounting policies in accordance with Circular 99, which have affected the Group on a prospective basis, as Circular 99 does not require retrospective application for these changes. The Company has also re-presented the corresponding figures of certain line items to conform with the presentation under Circular 99, as disclosed in Note 35.

3.1.2 *Changes in accounting policies due to the adoption of new accounting regulations circular 43*

On 20 April 2026, the Ministry of Finance issued Circular 43 amending and supplementing a number of articles of Circular No. 202/2014/TT-BTC, which provides guidance on the preparation and presentation of consolidated financial statements. Circular 43 is effective for the preparation and presentation of consolidated financial statements for financial years beginning on or after 1 January 2026.

The Group has applied the changes in accounting policies in accordance with the provisions of Circular 43 that have an impact on the Group on a modified retrospective and prospective basis, depending on the specific accounts, as guided by the implementation provisions of Circular 43. Accordingly, the Group has also restated the corresponding comparative information for the prior period in respect of certain items to align with the presentation required under Circular 43, as disclosed in Note 35.

3.2 *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand, cash at banks and short-term, highly liquid investments with an original maturity of not more than three months that are readily convertible into known amounts of cash, that are subject to an insignificant risk of change in value and not subject to any restrictions on use.

3.3 *Receivables*

Receivables are presented in the interim consolidated balance sheet at the carrying amounts due from customers and other debtors, after deducting provision for doubtful debts.

The provision for doubtful debts represents amounts of outstanding receivables at the end of the period which are doubtful of being recovered. Increases or decreases to the provision balance are recorded as general and administrative expense in the interim consolidated income statement. When bad debts are determined as unrecoverable and are written off those bad debts, the difference between the provision for doubtful receivables previously made and historical cost of receivables is included in the interim consolidated income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.3 *Receivables* (continued)

For overdue receivables, provision for doubtful debts is provided as follows:

Overdue period	*Provision rate (% of receivable value)*
From 6 months to less than 1 year	30
From 1 year to less than 2 years	50
From 2 years to less than 3 years	70
3 years or more	100

3.4 *Inventories*

Inventory property

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory property and is measured at the lower of cost and NRV.

Cost of inventory property comprise direct cost incurred on the property and overheads allocated to that property, specifically as follows:

- Purchase cost, freehold and leasehold rights for land;
- Amounts paid to contractors for construction; and
- Borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, property transfer taxes, construction overheads and other related costs.

Net realisable value is the estimated selling price in the ordinary course of the business, based on market price at the end of the period, and less the estimated cost to complete and the estimated selling price.

The cost of the inventory property sold recognised in the interim consolidated income statement based on specific identification method.

Other inventories

Inventories are measured at their historical costs. The cost of inventories comprises costs of purchase, costs of conversion (including raw materials, direct labor cost, other directly related cost, manufacturing general overheads allocated based on the normal operating capacity) incurred in bringing the inventories to their present location and condition.

In case the net realizable value is lower than the cost, it must be calculated according to the net realizable value.

Net realisable value ("NRV") represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The perpetual method is used to record inventories, which are valued as follows:

Materials, tools and supplies	- cost of purchase on a weighted average basis.
Finished goods and work-in process	- cost of finished goods on a weighted average method.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.4 *Inventories* (continued)

Provision for diminution in value of inventories

An inventory provision represents the estimated loss to reflect the decrease in value of inventories (through diminution, damage, obsolescence, etc.) below their carrying amount, and is intended to cover actual losses incurred from the decline in value of raw materials, finished goods and other inventories owned by the Group. The Group recognises the inventory provision when there is evidence that the net realisable value is lower than the cost of inventories.

Increases or decreases to the provision balance are recognised in cost of goods sold in the interim consolidated income statement. When inventories expire, become obsolete, are damaged or are no longer usable, the difference between the provision previously made and the historical cost of inventories is included in the interim consolidated income statement.

3.5 *Tangible fixed assets*

Tangible fixed assets comprise assets with physical substance held by the enterprise for use in production and business activities.

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the tangible fixed asset to working conditions for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the interim consolidated income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim consolidated income statement.

3.6 *Intangible assets*

Intangible assets are stated at cost less accumulated amortization.

The cost of an intangible asset comprises its purchase price and any directly attributable costs of preparing the intangible asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the assets and other expenditures are charged to the interim consolidated income statement as incurred.

When intangible assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim consolidated income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.7 *Investment properties*

Investment properties including buildings and structures, lands and attached infrastructures in the industrial parks being sub-leased (with land use right certificates granted for the lessee) ,and rental income by straight-line basis *(Note 3.22)*, are stated at cost including transaction costs less accumulated depreciation.

Subsequent expenditure relating to an investment property that has already been recognised is added to the net book value of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property.

Depreciation of investment properties are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	10 - 48 years
Land and infrastructures for rent	50 years

Investment properties are derecognised when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the assets is recognised in the interim consolidated income statement in the period of retirement or disposal.

Transfers are made to investment properties when, and only when, there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. The transfer from investment property to owner-occupied property or inventories does not change the cost or the carrying value of the property for subsequent accounting at the date of change in use.

3.8 *Depreciation and amortization*

Depreciation of tangible fixed assets and amortization of intangible assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	5 - 48 years
Machinery and equipment	4 - 10 years
Means of transportation	5 - 20 years
Office equipment	3 - 5 years
Computer software	3 - 5 years
Other intangible assets	48 years

No amortisation is required for infinite land use right.

Tangible fixed assets are depreciated from the time the assets are available for use. Intangible fixed assets are amortized from the time they are put into use.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.9 *Construction in progress*

Construction in progress represents the costs of acquiring new assets that have not yet been fully installed or the costs of construction that have not yet been fully completed. Construction in progress is stated at cost, which includes all necessary costs to construct, repair, renovate, expand, or re-equip the projects with technologies, such as construction costs, tools and equipment costs, project management costs, construction consulting costs, and borrowing costs that are eligible for capitalization.

Construction in progress will be transferred to the appropriate fixed asset account when these assets are fully installed or the construction project is fully completed, and depreciation of these assets will commence when they are ready for their intended use.
Construction costs are recognized as expenses when such costs do not meet the conditions to be recognized as fixed assets

3.10 *Leased assets*

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

A lease is classified as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the asset to the lessee. All other leases are classified as operating leases.

Where the Group is the lessee

Rentals under operating leases are charged to the interim consolidated income statement on a straight-line basis over the lease term.

Where the Group is the lessor

Assets subject to operating leases are included as the Group's fixed assets in the interim consolidated statement of financial position.

For other cases under an operating lease, lease income is recognised in the interim consolidated income statement on a straight-line basis over the lease term.

3.11 *Borrowing costs*

Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds.

Borrowing costs are recorded as expense during the period in which they are incurred.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.12 *Deferred expenses*

Deferred expenses are reported as short-term or long-term deferred expenses on the interim consolidated statement of financial position and are amortised over the period to which they relate or during which the related economic benefits are consumed.

The following types of expenses are recorded as long-term prepaid expense and are amortised to the interim consolidated income statement:

- Costs related to leased infrastructures and operating fixed assets incurred for production and business operations over multiple accounting periods;
- Relocation costs;
- Tools and consumables used for more than one year with high value;
- Repair and periodic maintenance costs of fixed assets related to business operations over multiple accounting periods;
- Etc

Repair and periodic maintenance costs of fixed assets related to business operations over multiple accounting periods

The Company determine and allocate repair and periodic maintenance costs of fixed assets related to business operations over multiple accounting periods based on their nature to select the appropriate allocation method and basis.

3.13 *Business combinations and goodwill*

Business combinations are accounted for using the purchase method. The cost of a business combination is measured as the fair value of assets given, equity instruments issued, and liabilities incurred or assumed at the date of exchange plus any costs directly attributable to the business combination. Identifiable assets and liabilities and contingent liabilities assumed in a business combination are measured initially at fair values at the date of business combination.

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost the business combination over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. If the cost of a business combination is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the interim consolidated income statement. After initial recognition, goodwill is measured at cost less any accumulated amortization. Goodwill is amortized over 10-year period on a straight-line basis.

The parent company conducts the periodical review for impairment of goodwill of investment in subsidiaries. If there are indicators of impairment loss incurred is higher than the yearly allocated amount of goodwill on the straight-line basis, the higher amount will be recorded in the interim consolidated income statement.

3.14 *Investments*

Investments in subsidiaries

Investments in subsidiaries that are excluded from interim consolidated financial statements are carried at cost.

Distributions from accumulated net profits of these subsidiaries arising subsequent to the date of acquisition are recognised in the interim consolidated income statement. Distributions from sources other than from such profits are considered a recovery of investment and are deducted to the cost of the investment.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.14 *Investments* (continued)

Investments in associates

The Group's investment in associates is accounted for using the equity method of accounting. An associate is an entity in which the Group has significant influence that is neither subsidiaries nor joint ventures. The Group generally deems they have significant influence if they have over 20% of the voting rights.

Under the equity method, the investment is carried in the interim consolidated balance sheet at cost plus post-acquisition changes in the Group's share of net assets of the associates. Goodwill arising on acquisition of the associate is included in the carrying amount of the investment. Goodwill is not amortized and subject to annual review for impairment.

The share of post-acquisition profit (loss) of the associates is presented on face of the interim consolidated income statement and its share of post-acquisition movements in reserves is recognized in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividends receivable from associates reduce the carrying amount of the investment.

The interim financial statements of the associates are prepared for the same reporting period and use the same accounting policies as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

Held-for-trading securities

Held-for-trading securities are initially stated at fair value, being the consideration paid at the trade date.

Investments in other entities

Held-to-maturity investments are stated at their acquisition costs.

Held-to-maturity investments

Held-to-maturity investments are stated at costs.

Held-to-maturity investments that give rise to a discount (where the bond issuance price is lower than the bond's face value) or a premium (where the bond issuance price is higher than the bond's face value) are accounted for such that the discount or premium is amortized to financial income using either the straight-line method or the effective interest method, as appropriate over the term of the investment. Where the periodic amortization of a premium on a held-to-maturity investment exceeds the periodic interest income based on the investment's nominal interest rate (if any), the excess amount is recognized as finance expense.

Provision for diminution in value of investments

Provision for diminution in value of the investment is made when there are reliable evidences that a part or whole of an investment (including investments held to maturity, if any) has suffered a diminution in value or is not recoverable at the balance sheet date.

Increases or decreases in the provision balance are recorded as finance expenses in the interim consolidated income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.15 *Business cooperation contracts*

The Group's interest in the business cooperation contracts are recognised in the interim consolidated financial statements by including the amount of:

a) the assets that the Group controls and the liabilities that the Corporation/Group incurs; and

b) the expense that the Group incurs and the Group's share of the income that the Group earns from the sale of goods or rendering of services by the jointly controlled operation.

3.16 *Payables*

Trade and other payables comprise obligations of the Group to suppliers of materials and goods, service providers, vendors of property, plant and equipment, investment properties and financial investments under executed economic contracts and amounts payable to main and subcontractors for construction and installation works.

3.17 *Accruals*

Accrued expenses comprise amounts payable for goods and services that have been received from suppliers or provided to customers during the reporting period but have not yet been paid due to the absence of sufficient supporting documents, accounting records or documentation and are recognised as production and business expenses of the reporting period.

3.18 *Provisions*

General

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance expense.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.19 *Foreign currency transactions*

Transactions denominated in currencies other than the accounting currency of the Group of Companies (VND) are initially recorded using the actual transaction exchange rates or carrying exchange rates, depending on the nature and substance of the underlying transactions and the principles for determining exchange rates at the transaction date, as follows:

Actual transaction exchange rates

Transactions denominated in currencies other than the accounting currency of the Group of Companies (VND) are recorded at the actual exchange rates at the transaction dates, being the average buying and selling transfer exchange rates of the commercial bank with which the entity frequently conducts transactions, or at an exchange rate approximating such average transfer exchange rates at the transaction dates (hereinafter referred to as the "approximated exchange rates").Approximated exchange rates are required to differ by no more than ±1% from the corresponding average buying and selling transfer exchange rates at the transaction dates. The average buying and selling transfer exchange rates are determined on a monthly basis as the arithmetic average of the bank's daily buying and selling transfer exchange rates. The application of approximate exchange rates must not result in any material impact on the financial position and results of operations of the Group of Companies for the relevant accounting period.

Where the commercial bank with which the Group of Companies frequently conducts transactions does not publish an exchange rate for the foreign currency in which transactions are denominated, the Group of Companies using an intermediate currency for translation into the entity's accounting currency, provided that such approach is applied consistently.

All foreign exchange differences incurred are taken to the interim consolidated income statement.

Carrying exchange rates

Carrying exchange rates include either specific actual carrying exchange rates or weighted-average carrying exchange rates. The application of specific actual carrying exchange rates or weighted-average carrying exchange rates depends on the characteristics and management requirements of foreign currency–denominated monetary items of the Group of Companies.

All foreign exchange differences incurred are taken to the interim consolidated income statement.

3.20 *Share capital*

Ordinary shares

Ordinary shares with voting right are recognised at par value.

3.21 *Appropriation of net profit*

Net profit after tax is available for appropriation to shareholders after approval in the annual general meeting, and after making appropriation to reserve funds in accordance with the Group's Charter and Vietnam's regulatory requirements.

The Group maintains the following reserve funds which are appropriated from the Group's net profit as approved by shareholders at the annual general meeting:

Investment and development fund

This fund is set aside for use in the Group's expansion of its operation or of in-depth investment.

Bonus and welfare fund

This fund is set aside for employee reward, incentives, common benefits and welfare improvements, and presented as a liability on the interim consolidated statement of financial position.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.22 *Revenue recognition*

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discounts, rebates and sales returns. The following specific recognition criteria must also be met before revenue is recognized:

Rendering of utilities and other services

Where the contract outcome can be reliably measured, revenue is recognised by reference to the stage of completion. Stage of completion is measured by reference to the proportion of work completed.

Sale of goods

Revenue is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually upon the delivery of the goods.

Revenue of land sublease with infrastructures and factory

Where the contract outcome can be reliably measured, revenue of land sublease with developed infrastructure and factory is recognized in consolidated income statement on a straight-line basis over the terms of the sublease.

Sale of inventory properties

Revenue from sale of inventory properties (townhouse) that the Group sells after the construction is completed is recognised when the significant risks and returns associated with the ownership of the property have been transferred to the buyer.

Interest income

Interest is recognised on an accrual basis based on the time and actual interest rate for each period.

Dividend and profit distribution income

Dividend and profit distribution income are recognised when the Group is entitled to receive dividends or when the Group is entitled to receive profits from its capital contributions.

3.23 *Revenue deductions*

Revenue deductions include trade discounts, sales allowances, and sales returns.

Revenue deductions arising in the same period in which products, goods, or services are sold are recorded as a reduction of revenue in that period. In cases where products, goods, or services are sold during the period but trade discounts, sales allowances, or sales returns arise in the subsequent year, the Group reduces the revenue recognised for the year, provided that such revenue deductions arise before the issuance date of the financial statements.

3.24 *Selling expenses*

Selling expenses reflect actual costs incurred in connection with the sale of goods and the provision of services.

3.25 *General and administrative expenses*

General and administrative expenses reflect actual costs incurred in the course of the general management of the Group.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.26 *Taxation*

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the interim balance sheet date.

Current income tax is charged or credited to the interim consolidated income statement, except when it relates to items recognized directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Group to set off current tax assets against current tax liabilities and when the Group intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the interim balance sheet date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the related transaction affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures where timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised, except:

- where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates, and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each interim balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Previously unrecognized deferred tax assets are re-assessed at each interim balance sheet date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised, or the liability is settled based on tax rates and tax laws that have been enacted at the interim balance sheet date.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.26 *Taxation* (continued)

Deferred tax is charged or credited to the interim consolidated income statement, except when it relates to items recognized directly to equity, in which case the deferred tax is also dealt with in the equity account

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Group to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on:

- either the same taxable entity; or
- when the Group intends either to settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3.27 *Earnings per share*

Basic earnings per share amounts are calculated by dividing net profit/(loss) after tax for the period attributable to ordinary shareholders of the Group (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the net profit after tax attributable to ordinary shareholders holders of the Group (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

3.28 *Segment information*

A segment is a component determined separately by the Group which is engaged in providing products or related services (business segment) or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments.

The Group's principal business segments include leasing and providing industrial park utilities, selling goods and finished products, providing construction, and consulting services, and making financial investments in other sectors.

3.29 *Related parties*

Parties are considered to be related parties of the Group if one party has the ability to directly or indirectly control or to exercise significant influence over, the other party in making financial and operating decisions, or when the Group and the other party are under common control or subject to significant influence by the same party. Related parties may be entities or individuals, including close members of their families.

3.30 *Significant estimates*

The preparation of the interim consolidated financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System, and the statutory requirements relevant to the preparation and presentation of the interim consolidated financial statements requires management to make estimates and assumptions that affect the carrying amounts of assets and liabilities, the disclosure of contingent assets and liabilities as at the reporting date, as well as the reported amounts of revenue and expenses during the reporting period.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.31 *Significant estimates* (continued)

Such estimates and assumptions are continually evaluated based on past experience and other factors, including expectations of future events that are believed to be reasonable and have a significant impact on the Group's consolidated financial statements. Although accounting estimates are made based on management's best knowledge and judgement, actual results may differ from those estimates and assumptions.

Additional disclosure:

Revenues and operating expenses related to investment properties are presented as follows:

VND

	Current period	*Previous period*
Rental income from investment property	342,027,696,760	290,321,404,031
Direct operating expenses of investment properties generating rental income during the period	125,265,945,981	111,331,212,264

The fair value of these investment properties has not been formally reviewed and determined as of 30 June 2026. However, based on the current rental rates, the Company's management believes that fair value amount of investment properties is higher than the carrying amount of these assets at the interim balance sheet date.

12. CAPITALISED BORROWING COSTS

During the period, the Company capitalised borrowing costs amounting to 35,565,641,687 VND (prior period: 29,125,950,041 VND). These costs relate to specific borrowings related to compensation and support activities arising from land clearance, in accordance with the approved compensation, support and resettlement plan for the implementation of the Phuoc Dong – Boi Loi Industrial – Urban – Service Complex Project (Phrase 3) – Industrial Park Area.

13. LONG-TERM ASSETS IN PROGRESS

31. CORPORATE INCOME TAX

The statutory corporate income tax ("CIT") rate applicable The Group is 20% of taxable income.

The Company's subsidiaries are obliged to pay CIT at the rates ranging from 10% to 20% of taxable income, depending on the type of operation.

The tax returns filed by the Company and its subsidiaries are subject to examination by the tax authorities. As the application of tax laws and regulations is susceptible to varying interpretations, the amounts reported in the interim consolidated financial statements could change at a later date upon final determination by the tax authorities.

31.1 CIT expenses

VND

	Current period	*Previous period*
Current tax expense	198,650,196,559	187,196,611,009
Adjustment for under accrual of tax from prior year(s)	760,570,601	-
	199,410,767,160	187,196,611,009

Others	613,360,484	1,633,343,984
CIT expense	**196,487,919,683**	**185,376,634,358**

31.2 *Current CIT*

The current tax payable is based on taxable income for the current period. The tax income of the Company and its subsidiaries for the period differs from the profit as reported in the interim consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or deductible. The Company and its subsidiaries' liability for current tax is calculated using tax rates that have been enacted by the interim balance sheet date.

31. CORPORATE INCOME TAX (continued)

31.3 *Deferred tax*

The following are the deferred tax assets and deferred tax liabilities recognised by the Group, and the movements thereon, during the current and previous period:

VND

31. CORPORATE INCOME TAX (continued)

31.4 Tax losses carried forward

The Group is entitled to carry tax loss forward to offset against taxable income arising within five years subsequent to the year in which the loss was incurred. At the interim balance sheet date, the Group had aggregated accumulated tax losses of VND 13,755,555,390 (31 December 2025: VND 14,258,138,450) available for offset against future taxable income. Details are as follows:

VND

Originating year	*Can be utilized up to*	*Tax loss amount incurred in originating year*	*Utilized*	*Unutilized at 30 June 2026*
2022 *(*)*	2027	9,118,938,863	(9,118,938,863)	-
2023 *(*)*	2028	3,446,745,307	(1,479,687,817)	1,967,057,490
2025 *(*)*	2030	11,788,497,900	-	11,788,497,900
TOTAL		**24,354,182,070**	**(10,598,626,680)**	**13,755,555,390**

(*) Estimated tax loss as per subsidiaries' corporate income tax declaration has not been audited by the local tax authorities as of the date of these interim consolidated financial statements.

No deferred tax assets were recognised the remaining tax loss of VND 13,755,555,390 because future taxable income cannot be ascertained at this stage.

33. COMMITMENTS

Operating leases commitment (lessee)

The Group leases the offices, machinery and equipment, ground and land under operating leases. The minimum lease commitments at the interim balance sheet date under the operating lease arrangements are as follows:

VND

	Beginning balance	*Ending balance*
Less than 1 year	1,251,020,232	1,100,143,800
From 1 year to 5 years	49,590,872,172	44,735,887,340
More than 5 years	324,754,333,173	324,754,333,173
TOTAL	**375,596,225,577**	**370,590,364,313**

33. COMMITMENTS (continued)

Capital commitments

As of 30 June 2026, the Company had commitments related to the construction and development costs of Southeast Industrial Park, Phuoc Dong - Boi Loi Urban - Service Industrial Park, and Loc An - Binh Son Industrial Park with a total value of VND 234,033,236,932 (as of 31 December 2025: VND 209,499,164,374).

34. SEGMENT INFORMATION

The primary segment reporting format is determined to be business segments as the Group's risks and rates of return are affected predominantly by differences in the products and services produced. Secondary information is reported geographically. The operating businesses are organised and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

The Group mainly operates in the fields of construction and real estate trading, selling goods and finished products, and providing consulting and construction services.

Transfer prices between business segments are set on an arm's length basis in a manner similar to transactions with third parties. Segment revenue, segment expense and segment result include transfers between business segments. Those transfers are eliminated in preparation of the interim consolidated financial statements.

34. SEGMENT INFORMATION (continued)

The following table presents revenue and costs and certain assets and liability information regarding the Group's business segment:

VND

	Land sublease and provision of industrial zone facilities	*Others*	*Eliminates*	*Total*
